

## **CONSULTANCY RESEARCH & DEVELOPMENT**

### **PREAMBLE**

1. To create zeal amongst students and faculty members towards research and innovation.
2. To create centers of Excellence in niche areas of research.
3. To work closely with the industrial needs that eventually will result in new or improved products, processes, systems or services that can increase the company's productivity.
4. To foster collaborations for mutual benefits and to maximize Industrial connectivity.
5. To establish collaboration with other universities, public and private sectors and identify R&D projects including consultancy services which could be undertaken at the institution.
6. To promote research in various departments of the Institute.
7. To ensure smooth functioning and effective Management of R&D at the institution

### **FUNCTIONS**

- Consultancy, Research and Development cell is an integral part of the activities of QIS Institute of Technology. This cell is one of the wings of the Institute which facilitates, channelizes, records, and regulates all the academic, sponsored, collaborative research projects and consultancy works in the Institute.
- In a world increasingly propelled by technology, academic research forms the mainspring of a nation's economic growth. QISIT aspires to transform the lives of young budding engineers through their innovative ideas to contribute for research at academic level.
- Our institution is closely working with core industries to train the students in this direction. This objective will be very close to the heart of the industry in the direction of producing ready to be employed engineers.
- The key goal of the Institute is to provide a creative atmosphere in which higher studies and research thrive amongst the faculty and students. It also promotes and manages Institute-Industry interaction.
